

Documentation for creating filling PDF

Step 1:

Create a word document file to make an initial design for the PDF template as shown in the screenshot 1.

The screenshot shows a document titled "Parental Consent" for "Lighthouse Pediatrics". The form includes fields for the patient's name (First, Middle, Last), date of birth (DOB), and the parent's name (First, Middle, Last). It also contains an authorization statement and a table for listing authorized persons with columns for First Name, Last Name, and Relationship.

Lighthouse Pediatrics

Parental Consent

Patient's Name

First Name: Middle Name: Last Name:

DOB:

Parent's Name

First Name: Middle Name: Last Name:

I authorize the following person(s) to bring my child to the office and to discuss medical treatments and issues with the doctor or staff in my absence.

First Name	Last Name	Relationship
------------	-----------	--------------

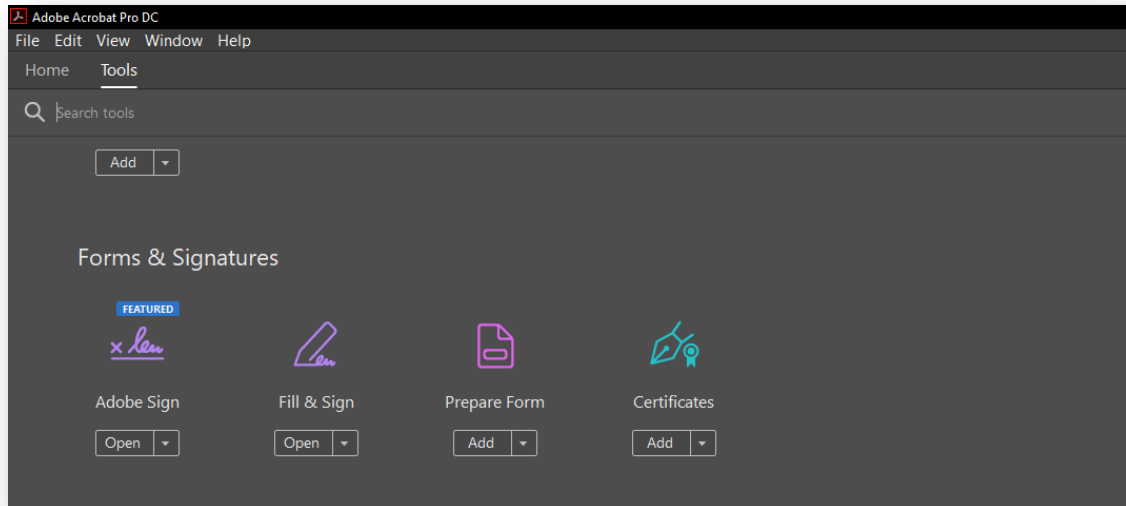

Screenshot 1

Step 2:

Save the document as PDF to be prepared for editing it as a filling PDF files.

Step 3:

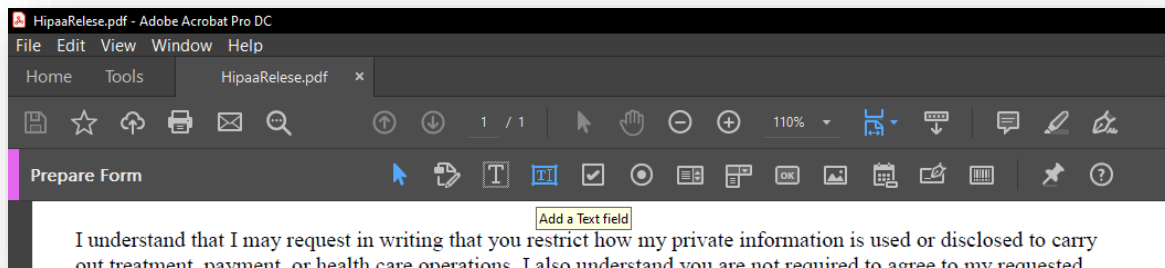

By using Adobe Acrobat DC. There is “**Prepare Form**” from tools as shown in screenshot.

Screenshot 2

Step 4:

Open the PDF that created in step 2. Start to put text fields in the PDF.

Screenshot 3

Step 5:

Name the text fields in the PDF the same as the returned name from the JSON object as shown in screenshot 4.

The screenshot shows the Adobe Acrobat Pro DC interface with a PDF document titled 'HipaaRelease.pdf'. The document contains the following text and form fields:

I understand that I may revoke this consent in writing at any time, except to the extent that you have taken action relying on this consent.

Patient's Name

First Name: Middle Name: Last Name:

DOB:

Parent's Name

First Name: Middle Name: Last Name:

Parent's Signature:

Screenshot 4

Step 6:

Save the file.
